

Dear Kilmallie Community Council

Thank you for sending out the KCC newsletter in the mail. Please add me to your mailing list for future editions 😊

I am also writing you in regards to the internet provision in this area.

Having had serious surgery at the beginning of the year, and not being able to drive for another 5 months, I have had to rely on communicating via phone and internet. The latter one being a total shambles.

Then I learned about the Tegola project through councillor Allan Henderson and found out that there are alternative ways for getting high speed broadband in the more remote corners of the Highlands. I have contacted the manager of West Highland Woodland Estate but think that this may benefit more people in the Kilmallie Community, especially the ones that are furthest away from any local exchange.

Please let me know if this would be of interest and I will gladly provide you with the information/details regarding the possibilities. Or maybe it would be helpful to post a survey in your next newsletter to see if there is a demand for this.

Thank you for your time,

Chris Pellow
