Message to Community Organisations in the Corpach - Gairloch area

Many of you were kind enough to participate in the workshops in September 2011, I organised for British Waterways Scotland in the Moorings Hotel to discuss the preparation of a Strategy for the Caledonian Canal between Corpach and Gairloch.

My clients are very conscious that several months have past since we had our workshop sessions and are keen to give you an update on the response from the Community at our workshops and to agree the next steps in completing the Strategy.

To this end we plan to come to the area on 19th April and have secured the Kilmallie Hall as a venue for the update session which will run from 2-4 pm

I would be obliged if you could put this date in your diaries and advise other community groups of the plan. It is our intention to hold further consultation sessions to discuss / develop the strategy with the public in the near future.

Many thanks again for your assistance with this matter and I will send out more information nearer the 19th of April

Best wishes

John
