

Kilmallie Community Company

2012 AGM - Corpach Woods

Our AGM was on Tuesday 29th May in the Kilmallie back hall. Paul Brian chaired the meeting and welcomed all those present and then gave a report. He thanked the retiring directors John Ireland & Richard Grieve. He described the start up of the company and the activities during the year. A short discussion of the "Right to buy" followed and it was emphasised that although the company had the ability to register interest in land we had no immediate plans to do so. The canal project and the marina project were mentioned but there have been no plans to take these projects further.

David Govan explained our accounts copies of which were circulated.

Two new directors were appointed John MacIntyre and Colin Gray. So our board now includes these two and Paul Brian, Roddy Mainland, Chris Strong, Lee MacKenzie and Jan Maclugash.

AOB included a discussion on taking core samples to discover the age of the trees. We discussed the safety and conservation reasons for not using chainsaws. Allan Colquhoun plans to organise the taking of borings.

The meeting finished with an informal chat over a cup of tea.
